

Princeton Nov 27
1905

Dear Carrie.

Will is failing slowly
sleeps most of time. is
very weak. can take no
nourishment. - Ray had
better come foreprepared
to stay over, as it will
not pay him to go back
and come so soon a-
gain. Hardly think it
possible for him to
last through the week
he will probably be
unconscious for a
day or two: am afraid
we will have a storm
it is blue enough
without that.
Well Good Bye

Mother
